PHYOE PHYOE MYA THEIN

Software Developer & Full-Stack Engineer

phyoe572015@gmail.com • linkedin.com/in/phyophyomyathein96 • github.com/Phyoephyoemyathein • Yangon, Myanmar

PROFESSIONAL SUMMARY

Dedicated and results-driven Software Developer with a robust academic foundation in Computer Science and years of hands-on technical experience in full-stack web application development, enterprise database maintenance, and system upgrades. Specialized in the PHP/Laravel ecosystem, relational database architecture (MySQL, SQL Server), and modern frontend workflows using Tailwind CSS. Proven track record of award-winning project delivery, clean code practices, and system performance optimization.

TECHNICAL SKILLS & ENVIRONMENTS

Backend Development: PHP (Laravel v11+, MVC Architecture, RESTful API Development, Eloquent ORM, Blade Templating)

Database Architecture: MySQL, Microsoft SQL Server, Schema Design, Query Optimization, Indexing, Data Migration

Frontend Development: JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, Responsive UI Layouts

Tools & Environments: Git, GitHub, VS Code, Cursor AI, Laragon, XAMPP, Postman, Composer, NPM

PROFESSIONAL EXPERIENCE

Software Engineer / IT Systems Specialist | Enterprise & Web Systems Track — Present

Manage end-to-end full-stack software development, custom web applications, database maintenance, and enterprise system updates for business operations.

- Perform core system updates, bug fixes, data migration, and security patches to ensure high-availability enterprise applications.
- Optimize complex database queries and indexing strategies in MySQL and SQL Server to reduce execution time and enhance speed.
- Collaborate closely with business stakeholders to transform functional requirements into scalable, secure web solutions.

Software Development Intern | Zwenexsys Co., Ltd — 2016

Developed and maintained core backend modules using PHP, Laravel Framework, and MySQL database management.

- Designed relational database structures, integrated responsive UI components, and optimized system performance.
- 🏆 **Best Project Award** Recognized and awarded for developing the outstanding "Guidelines for Universities" system during the internship.

ACADEMIC BACKGROUND

Bachelor of Computer Science (B.C.Sc.) | 5-Year Intensive University Program **Graduated**

- Completed a comprehensive 5-year curriculum covering software engineering principles, advanced data structures, algorithms, relational database systems, and object-oriented programming.
- 🎓 **Master's Degree Qualification (M.C.Sc. Qualified):** Achieved top-tier academic standing and earned formal qualification/eligibility for the Master of Computer Science (M.C.Sc.) program.

FEATURED PORTFOLIO PROJECTS

Saas Flow (Laravel & Tailwind CSS): Modern enterprise web application featuring multi-tenant architectural workflows, granular role-based access control (RBAC), intuitive admin dashboard, and user management.

Laptop Service Management System (Laravel, MySQL & Tailwind CSS): Comprehensive service & repair tracking platform built for hardware service centers, managing ticketing workflows, customer profiles, inventory stock, and status updates.

SOFT SKILLS & LANGUAGES

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Time Management, Code Documentation

Languages: Myanmar (Native), English (Professional Working)
